To Whom it May Concern:

I write to you today in support of Responsible Bidder Ordinance (RBO) for public construction projects. A Responsible Bidder Ordinance states that public construction projects paid for by taxpayer dollars are not automatically awarded to the lowest bidder, but to the best and most responsible bidder.

In this very competitive business environment, there are always companies willing to do work for low prices. But this lowest price does not always mean the best quality. An RBO would ensure protections that workers and communities deserve.

We are looking for taxpayer value, and I am certain that an RBO would provide this.

Thank you for considering my thoughts on this matter.

Sincerely,

A handwritten signature in blue ink that reads "Terry A. Goodin".
