

Watch your wallet.

**It's a fact. Some construction
industry contractors steal their
worker's wages every day.
It's illegal and it's criminal.**

You can take the first step in protecting yourself and your family by visiting our website and using our wage calculator. It's designed to make sure contractors are paying you the Prevailing Wage, especially if you're working on a public works project funded by taxpayer dollars. If they're not, call us. We can help, and we'll do it in confidence.

**We're the Indiana, Illinois & Iowa Foundation For Fair Contracting
Keeping unfair contractors on a short leash.**
